

CURRICULUM VITAE

1. Personal Information

- **Full Name:** Mulusew Andualem Asemahagn (PhD)
- **Academic Rank:** Associate Professor
- **Administrative Position:** Corporate Director for Research and Community Engagement (RCE-CD)
- **Institution:** Bahir Dar University-College of Medicine and Health Sciences
- **Office Address:** Sebatamit-Admin Building, **Room 318**
- **Email:** muler.hi@gmail.com / Mulusew.Andualem@bdu.edu.et
- **Mobile:** +251 913 814 608 / +251 924 305 632
- **Website:** www.bdu.edu.et/cmhs/391
- **Google Scholar:** https://scholar.google.com/citations?hl=en&user=nM_7s8sAAAAJ
- **BDU-PRMS:** <http://10.161.65.18/profile/991>
- **Top2% Global Scientists:** <https://manuelgarcia.designrshub.com/worlds-top-scientists/browse?type=single&year=2025&country=worldwide&search=Bahir+Dar+University>
- **ORCID:** <https://www.0000-0002-0345-9437>
- **ResearchGate:** <https://www.researchgate.net/profile/Mulusew-Asemahagn>

2. Strategic Profile and Summary

Dr. Mulusew Andualem Asemahagn is an Associate Professor in the Department of Health Systems Management and Health Economics, College of Medicine and Health Sciences (CMHS), Bahir Dar University (BDU). He holds a PhD in Public Health from Bahir Dar University in March 2021, a master's degree in Public Health Informatics from Addis Ababa University in July 2012, and a bachelor's degree in Medical Laboratory Technology from Haramaya University in July 2007.

Committed to continuous professional development (CPD), he has completed numerous basic and training-of-trainers (ToT) programmes in Ethiopia and abroad, including training at Ohio State University, the University of Washington, the African Population and Health Research Center (APHRC), the University of Oslo, and the Global Health Network Training Center.

Dr. Mulusew has extensive teaching and mentorship experience at both master's and PhD levels. His teaching portfolio includes qualitative and quantitative research methods, scientific writing, research misconduct and mitigating strategies, evidence-based practice, GIS and disease mapping, health informatics (digital health, health information systems, electronic medical records, telemedicine, and healthcare technologies), and research and healthcare ethics.

Dr. Mulusew has effectively supervised **09** PhD students and more than **85 master's** students at Bahir Dar University and the University of Gondar since 2013. He has also examined **over 80 theses** of postgraduate students as an internal and external examiner at Bahir Dar University, the University of Gondar, Debre Markos University, and Hawassa University since 2016. He has also played a crucial role in **curriculum development and quality assurance** at Bahir Dar University and other Ethiopian universities, including Gondar, Debre Markos, Arba Minch, and Mattu, where he has served as a team member and external evaluator from 2022 -2025.

Dr. Mulusew has held several academic and research leadership roles, including corporate director

of research and community engagement since April 2024, director of the Mecha Health and Demographic Surveillance System (April 2021 –April 2024), director of the research and development directorate (Sep 2022–April 2024), chairperson of the Institutional Review Board (IRB) and selection committee for leadership positions (2021 -May 2024), and member of the PhD council (Sep 2022 –May 2024). He has also served on numerous college- and university-level standing and ad-hoc committees, including the senate, executive team, management council, staff recruitment and promotion committees, curriculum development committee, PhD screening committees, thesis examination task forces, institutional directive/strategic development committees, etc.

Dr. Mulusew is a veteran public health scientist and implementation researcher with extensive experience encompassing infectious disease epidemiology, particularly Tuberculosis, malaria, HIV, and TB–HIV co-infection, alongside digital health and health informatics, big data analysis, evidence-informed decision-making, knowledge translation, non-communicable diseases, service quality, and health systems strengthening in low-and middle-income settings.

He has successfully secured and managed competitive national and international research grants as PI and Co-PI from major funding agencies, such as the *National Institutes of Health (NIH)*, *Royal Society of Tropical Medicine and Hygiene (RSTMH)*, *Nestlé Foundation*, *International Institute for Primary Health Care–Ethiopia (IPHCE)*, *the World Health Organization (WHO)*, *light for the world*, and *Bahir Dar University*. He has also managed and overseen several research projects secured by academic staff and partners during his tenure as Director.

He actively generates, disseminates, and translates high-quality evidence by publishing in peer-reviewed journals, presenting at conferences and workshops, applying research findings to routine practices (teaching, leadership, research, community service, collaboration...), and developing action-oriented policy/technical briefs. To date, he has published over **70** articles in peer-reviewed scientific journals and delivered over 20 co-created community services. ***Most importantly, he has developed six action-oriented policy briefs from his research findings.*** These achievements have accelerated BDU's vision and enhanced its reputation.

Dr. Mulusew has contributed as a team lead and member to research agenda-setting and prioritization at both the national and university levels, in collaboration with the Ministry of Education, the Ministry of Health, and the Fenot Project. Also, he has played a pivotal role in promoting and putting evidence into action, working closely with the Ministry of Health, Fenot Project, and Amhara Public Health Institution/APHI.

Additionally, he has played a lead role in organizing high-impact international research conferences in collaboration with the APHI, Alliance for Research, Innovation and Education (AFRIE), the regional health bureau, the Ministry of Health, WHO, UNICEF, the Carter Center, and other partners from 2022 to 2026. He is working closely with the African Population and Health Research Center (APHRC), the African Population Cohort Consortium (APCC), the Ministry of Health (MoH),

APHI, the Armauer Hansen Research Institute (AHARI), the Ethiopian Public Health Institute (EPHI), Ethiopian Research Universities, and HDSS sites.

In conclusion, **Dr. Mulusew Andualem** has demonstrated excellence in teaching, research, leadership, community service, mentorship, and knowledge translation into policy and practice in public health and health informatics.

3. Education /Academic Qualifications

- Oct 2017 -Mar 2021: **PhD** in Public Health, Bahir Dar University (BDU), Ethiopia.
- Oct 2013 - Apr 2014: Leadership and Management in Health Care, University of Washington.
- Oct 2010 -July 2012: **Master degree** in Health Informatics, Addis Ababa University, Ethiopia.
- Oct 2011 -Jan 2012: **Three-month** Certificate in Leadership and Management Skills from the Vision Ethiopian Congress for Democracy (VECOD), Addis Ababa (Ethiopia).
- Sep 2003 -July 2006: **BSc** in Medical Laboratory Technology, Haramaya University, Ethiopia.

4. Work Experience /Appointment history

- **November 2014 to present:** Instructor and Researcher at the College of Medicine and Health Sciences, Bahir Dar University.
- **Nov 2012 -Oct 2014:** Lecturer at the College of Medicine and Health Sciences, University of Gondar.
- **July 1 - Oct 2012:** Planning and Data Compilation and Analysis Officer, West Gojjam Zone Health Department, Amhara National Regional State.
- **Sep 2010 -Jun 2012:** Education for a master's degree at Addis Ababa University.
- **Oct 2006 -Aug 30, 2010:** Healthcare Worker at Assosa and Motta Primary Hospitals.

5. Academic & Research Leadership Appointments / Positions

- **March 2018 –Present:** Associate Professor of Public Health, College of Medicine and Health Sciences (CMHS), BDU, Bahir Dar, Ethiopia.
- **April 2024 –Present:** Corporate Director, Research and Community Engagement at CMHS, BDU
- **April 2024 –Present:** Executive Management Team Member, CMHS, BDU.
- **2022 -2024** -PhD Council Member at CMHS, BDU.
- **2022 –2024** -Director, Research and Development Directorate, Office of CMHS, BDU.
- **2021 –2024** -Director, Mecha Health Demographic Surveillance System, CMHS, BDU
- **2021 –2024** -Chairperson, Research Ethics Institutional Review Board (IRB), CMHS, BDU.
- **2024 -Present** -Senate member at BDU and Executive Management member at CMHS.
- **2022 -2024** -Staff Promotion Committee member.
- **2022 -2024** -Chairperson, Staff Recruitment Committee for academic positions at CMHS.
- **Sep 2022 -Present** -Senate Member at CMHS, BDU.

- **2016 –2026 –Course chair** for health informatics, evidence-based practices, Quantitative research methods, qualitative research methods, Ethics in research and healthcare practices, and advanced technologies in healthcare practices.

6. Research Grants Awards & Management

6.1. Research Grants from External Sources

- **Co-Principal Investigator/Co-PI:** Longitudinal evaluation of the status, barriers, and facilitators of sexual and reproductive health (SRH) services provision in public health facilities in Bahir Dar City, Amhara Region, Ethiopia: Mixed methods study; funded by Amhara Regional State Health Bureau, **\$28, 572.00 (4, 400, 000.00 ETB), 2026.**
- **Site Principal Investigator/PI:** Training on Implementation and Team Science for NCD Control (TITANS) project, *funded by Fogarty International-NIH*, **\$1, 252,400**, 2023–2028.
- **Principal Investigator/PI:** Enhancing Leprosy prevention, treatment outcome, and rehabilitation in Amhara region project, *funded by Royal Society of Tropical Medicine and Hygiene/RSTMH/*, **£4999.53**, 2024–2025.
- **Co-Investigator /Co-PI:** Effectiveness of Culturally Customized Maternal Nutrition Education project, funded by *the Nestlé Foundation- Netherlands*, **\$19,976**, 2024–2025.
- **Co-PI:** Enhancing NCD Prevention through Parent-Teachers-Development Agents network project, *funded by IPHC-E*, **\$10 000**, 2022–2024.
- **PI:** The 3rd National NTD Research Conference and Symposium in Bahir Dar City, Ethiopia: disseminating and translating research and program data into action among policymakers in collaboration with partners; *World Health Organization - \$58,848 (3,060,080.00 birr)*, *Light for the World - \$4,419.23 (229 800.00 birr)*, and *Orbis International - \$4817.3 (250 500.00 birr)*, Nov 2022.

6.2. Research Grant from Internal Sources

- **Co-PI:** Longitudinal SRHR Implementation Research project to enhance the establishment of model SRH service in Bahir Dar City Administration Public health facilities, ***Funded by Amhara Regional Health Bureau, \$28,387.00 (4, 4000, 000.00 birr)***, March 2026.
- **Co-PI:** Strengthen Malaria prevention and control through Artificial Intelligence and Digital Health in the Amhara Region with a Big Dataset application: Malaria AID – project - ***Funded by Bahir Dar University; \$14,391.20 (1,798,900.00 birr)***, 2025-2026.
- **Co-PI:** Impact of vented improved cook stove intervention on reducing childhood and maternal respiratory diseases and adverse pregnancy outcomes in the rural community of Mecha Health and Demographic Surveillance Site, Ethiopia: improved cook stove trial: **\$19,997.22 (2,499,650.00 birr)**, 2025 -2026.
- **PI:** District-level Epidemiology of Diseases in Mecha HDSS, ***funded by Bahir Dar University (BDU); \$20,849.60 (1,709,667.00 birr)***, 2024–2026.
- **Co-PI:** Creating a Model Health Facility in the Routine Health Information System and Data

Management in West Gojjam Zone; Funded by **BDU: \$3,703.70 (200, 000.00 birr)**, 2023-2024.

- **Co-PI:** Effectiveness of digital health interventions in improving NCD patient care, ***funded by BDU: \$11,827 (615,000.00 birr)***, 2022–2023.
- **PI:** Epidemiology of Pulmonary Tuberculosis: spatial-temporal distribution and service delivery and seeking barriers, ***funded by Mecha HDSS-BDU: \$9,821.43 (275, 000.00 birr)***, 2018–2020.
- **PI:** Research practices and barriers faced by academic staff working at 10 public universities in the Amhara Region, Ethiopia, from ***BDU: \$2,363.64 (52 000.00 birr)***, 2016-17.
- **PI:** Evaluating the status of eHMIS implementation, routine healthcare data quality and utilization, and identifying its determinants at the primary health facilities in East Gojjam zone: ***Funded by BDU: \$545.46 (34, 000 birr)***, 2016.

7. Research Dissemination and Scholarly Outputs

7.1. Manuscripts in Progress /Accepted for Publication (N = 19 plus).

1. Mohamedjud Hassen, Shegaw Mengsties, **Mulusew Andualem Asemahagn**. Burden of Stigma and Social Exclusion in Cutaneous Leishmaniasis: A Systematic Review and Meta-Analysis. **In Review at the Journal of Tropical Medicine**.
2. Mohamedjud Hassen, Shegaw Mengsties, **Mulusew Andualem Asemahagn**. The wound worsens during the full moon: Cultural beliefs, stigma, and lived experience of cutaneous leishmaniasis in Northeast Ethiopia. **In Review at PLOS ONE**.
3. Mohamedjud Hassen, Shegaw Mengsties, **Mulusew Andualem Asemahagn**. Machine Learning-Based Prediction of Cutaneous Leishmaniasis Status Among Adults in South Wollo Zone, Northeast, Ethiopia: A community-based cross-sectional study. **In Review at Therapeutic Advances in Infectious Disease**.
4. Mohamedjud Hassen, Shegaw Mengsties, **Mulusew Andualem Asemahagn**. Effectiveness of a Capability, Opportunity, Motivation, and Behavior (COM-B) Model–Based Structured Health Education Intervention on Health-Related Quality of Life Among Patients with Cutaneous Leishmaniasis: A Randomized Controlled Trial. **In Review at the International Wound Journal**.
5. Mohamedjud Hassen, Shegaw Mengsties, **Mulusew Andualem Asemahagn**. Effect of a Capability, Opportunity, Motivation, and Behavior (COM-B)-Based Structured Health Education Intervention on Health-Seeking Behaviours Among Patients with Cutaneous Leishmaniasis in South Wollo, Ethiopia: A Randomized Controlled Trial. **In Review at Acta Tropica Journal**.
6. Mohamedjud Hassen, Shegaw Mengsties, **Mulusew Andualem Asemahagn**. All household, social engagement, and farm responsibilities fell on me: Exploring Multiple

Perspectives on Cutaneous Leishmaniasis in South Wollo, Ethiopia. **In Review at Scientific Reports.**

7. Mengistie Kassahun Tariku, Wendemagegn Embiale, Eric HY Lau, and **Mulusew Andualem Asemahagn**. Trends and Determinants of Measles Proportionate Mortality and Case Fatality Rates in the Amhara Region, Ethiopia, 2015–2025. **Under review at BMC Infectious Diseases.**
8. 7.3. Impact Metrics (Citations, h-index...)

I have better impact metrics (citations = **6114**, h-index = **31**, and i10 index **49**), which significantly helped achieve the vision and enhance the visibility of Bahir Dar University and Ethiopia at large. The following links are evidence of my impact metrics.

- **Google Scholar**: https://scholar.google.com/citations?hl=en&user=nM_7s8sAAAAJ

- BDU-RPMS: <http://10.161.65.18/profile/991>
- ORCID: <https://www.0000-0002-0345-9437>
- ResearchGate: <https://www.researchgate.net/profile/Mulusew-Asemahagn>
- **Ranked 3rd** among 23 Bahir Dar University Scientists (**16 of 23** are clinical medicine researchers) included in the list of the top 2% Global scientists, and took **1st rank** among 16 clinical medicine scientists in 2025. <https://manuelgarcia.designrshub.com/worlds-top-scientists/browse?type=single&year=2025&country=worldwide&search=Bahir+Dar+University>

7.4. Special Efforts Beyond Publication / Translation, partnership, ... /

In principle, we all agree that research findings must be disseminated and used in policy and practice) timely. However, the practice remains in its infancy across the world, typically in low-and middle-income countries, including Ethiopia. I have a deep interest in and experience with research dissemination (publication, presentation, discussion...) and translation (policy briefs, technical briefs, use in decision-making, routine activities...). To strengthen this interest, I have taken training in evidence-informed decision-making and translating evidence into policy and action, in addition to my expertise in Public Health and Health Informatics. As a reflection of my efforts;

- **I have developed the following seven (07) Policy Briefs from my research findings.**
 - **Policy Brief:** Enhancing Routine Health Data Quality for Better and Equitable Healthcare in Ethiopia, 2026.
 - **Policy Brief:** Malaria Resurgence in Amhara Region, Ethiopia: A Need for Policy Action, Apr 2026
 - **Policy Brief:** Bridging the Gap: Barriers and Recommendations for Research Translation into Action, May 2025.
 - **Policy Brief:** Enhancing Tuberculosis Case Detection in Ethiopia, Nov 2024.
 - **Policy Brief:** Reducing New HIV Infections in Amhara Region, Ethiopia: Burden and Strategic Priorities, Sep 2024.
 - **Policy Brief:** Improving Routine Health Information Utilization in Amhara Region, Ethiopia, July 2023.
 - **Policy Brief:** Strengthening Malaria in Pregnancy Services in Ethiopia: A multidimensional health system and spatiotemporal analysis (2018–2024).
- **I have developed two (02) Issue Briefs from my research findings to be implemented;**
 - **Issue Brief:** Addressing Barriers and Leveraging Opportunities for Better Evidence Generation in Higher Education, 2026.
 - **Issue Brief:** Turning Research into Practice: Making Evidence-to-Action an Institutional Culture in Ethiopia, 2026.
- **Play a special role in making Evidence Translation into Action an institutional**

culture

- I have made a better effort to make E2A an institutional culture with collaborators (Fenot Project, MoE, RCE-VP-BDU and other universities) through establishing dedicated Units, recognizing policy briefs and related outputs in academic promotion and incentive systems alongside articles and books. It is in the process of being approved by the MoE.
- **I have translated my PhD Abstract into Amharic for local level use.**
 - የ 3ኛ ዲግሪ የምርምር ርዕሰ፡ በአማራ ክልል ምስራቅ ጎጃም ዞን የሳንባ ነቀርሳ (ቲቢ) በሽታ መጠን፣ በቦታና በጊዜ ያለው ስርጭት፣ በሽታው የሚተላለፍበት የጊዜ ርዝማኔ፣ የቲቢ በሽታ ያለባቸውን ሰዎች ፈልጎ ከማግኘት አንፃር ያሉ ተግዳሮቶች እና የጤና ተቋማት ለቲቢ አገልግሎት ያላቸው ተደራሽነትና ዝግጁነት፣ መጋቢት 2021።
- **Special, fruitful, and Sustainable Industry linkage Experience**
 - He has strong, fruitful, and sustainable collaboration with the Ministry of Health (MoH), Amhara Public Health Institute (APHI), Ethiopian Public Health Institute (EPHI), World Health Organization (WHO), and the Fenot Harvard Project in conducting research, dissemination, knowledge translation, and research ethics.
 - Has served as a member of the national technical team in **selecting and prioritizing national research thematic areas** for MoH in 2026.
 - **Organized one joint** international research conference in 2022 with MoH by mobilizing 100% of the budget from partners.
 - **Organized two joint international** research conferences with APHI in 2022 and 2023, mobilizing 100% of the budget from partners and donors.
 - Active strategic scientific advisory committee (SSAC) member of APHI since 2024.
 - **Co-authored nine (09) manuscripts** (under review) with EPHI on the national and subnational burden of disease in Ethiopia using national and subnational data.
 - **Got more support** (recruiting a data manager for two years, training, facilitation for project winning from Gates Foundation and Vital Strategies = impact projects from APHI for **Mecha HDSS** site of BDU)
 - **Got a collaboration and ToT-level training** opportunity from the University of Washington -Institute for Health Metrics and Evaluation (Global Burden of Diseases/GBD/) through EPHI in 2024.
 - Established collaboration and mobilized over **3.6 million from WHO** to organize a research conference in 2022 through personal links.
- I have presented most of my research findings at local, regional, national, and international conferences and workshops.
- I have also used them in teaching, research, leadership, public lectures, seminar practices, and in small group discussions with peers, stakeholders, and partners.

- Additionally, I have organized five international research conferences from 2022 to 2026 **as a lead organizer** in collaboration with partners, institutions, and stakeholders to establish and enhance networking and teamwork between researchers and policymakers for better dissemination and translation or use (**three of six are jointly organized with Amhara Public Health Institute /APHI/, Amhara Regional Health Bureau, Ministry of Health, and WHO**).
- I have been a coordinator for the **Regional Sinque-ሰንቂ**/ research dissemination and translation program of APHI and the regional health bureau-RHB/ by representing my university.
- At present, I am working closely on it with APHI, RHB, the MoH, and the Fenot project.

8. Community Services Given

I have delivered a significant number of problem-solving participatory community services to the surrounding community and institutions in Bahir Dar City and beyond. The following are major sample community services that I conducted:

- Preventing Antimicrobial Resistance through Rational Antibiotic Use and Safe Disposal in Bahir Dar City, 2026 -2027.
- Creating Model Health Facilities in the Routine Health Information System (RHIS) and Evidence-Based Practices (EBP) in West Gojjam Zone, 2022-2024.
- Malaria Prevention and Control among Abinet students at Selamargiw, Kidanemihiret, and Abune Gebremenfes Kidus Church Gubae Bets for one year in 2024.
- NCD Prevention, Screening, and Promotion Services for the targeted population in the Bahir Dar City Administration in 2023: A one-year service project.
- Data Management, Analysis, Scientific Write-up, and Dissemination among academic staff and postgraduate students of CMHS 2022: A one-year project given in each quarter.
- Enhancing Data Handling, Analysis, and Scientific Writing Skills of postgraduate students at the School of Public Health, CMHS, BDU, given on April 15 -18, 2021.
- **2018 –Present: Manuscript reviewer** for national and international conference organizing committees.
- **2017 –Present: Serving as a manuscript reviewer** for many peer-reviewed journals, including but not limited to The Lancet, MBJ, BMC Series, PLOS ONE, Dove Medical Press, Frontiers, Scientific Reports, Elsevier, SAGE, ...
- **2017** -Integrated life skills and sexual and reproductive health training for adolescents in Tanahaik Secondary School under the catchment areas of Shinbet Health Center.
- **2016** -Evaluating the relevance and significance of community service activities of the Mecha demographic surveillance and field research center.
- **2016** –Evaluating healthcare reform implementation status, challenges faced, solutions to tackle challenges, and implementing recommendations to solve the gaps in Abay Health

Center, Bahir Dar City.

- **2016** – Developing and implementing a strategic governing document for the Bahir Dar University staff communal living villages.
- **2016** -Developing Standard Guideline Document, Data collection questionnaire, and Evaluation forms for the Community-Based Education office of BDU.
- **2015** –Conducting effective training on the Routine Health Information System, Evidence-Based Practice, data management, Telemedicine, and patient data security system for graduating class nursing students.
- **2015** –Conducting Training on Infection Prevention and Patient Safety (IPPOS) to healthcare workers from hospitals in Amhara Region, Ethiopia.
- **2015** –Prevention and control of communicable diseases community service (TB, HIV/AIDS, Malaria, and fecal-oral diseases) in Bahir Dar City, in collaboration with the Bahir Dar City health department.
- **2015** – Reviewing project proposals coming from international partners to be implemented in the Amhara region, Ethiopia.

9. Achievements in Teaching, Advisership and Examination

9.1. Courses Taught

- I have taught a Research and Healthcare Ethics course with 2cr.hrs to PhD students in different public health tracks since 2022.
- I have taught Research Methods (quantitative and qualitative), healthcare data management and analysis, and scientific write-up and dissemination skills to master's students in different public health tracks since 2017.
- I have taught Research Methods (quantitative and qualitative), fundamentals of public health informatics, evidence-based practice, advanced technologies in healthcare systems, GIS and disease mapping, healthcare data management and analysis, and scientific write-up and dissemination skills to master's students in the Health Systems and Policy and Health Informatics programs since 2017.
- I also taught an introduction to health informatics and monitoring and evaluation courses to undergraduate (health informatics and all other health science disciplines) students from 2013 to 2016 at Bahir Dar University and University of Gondar.

9.2. Advisership

- I have **effectively advised/mentored nine PhD students** on different public health and health informatics topics (Tuberculosis, malaria, HIV/AIDS, measles, Dengue fever, NCD-hypertension, cutaneous leishmaniasis) for their dissertation proposal development, implementation with data collection, analysis, write-up, dissemination, and presentation. **Two of my PhD students defended their dissertations successfully with excellent grades.**

- I have **advised over 85 master's students** for their thesis work in different public health and health informatics topics, concentrating on infectious disease epidemiology, maternal and child health, non-communicable diseases, health systems and service quality, and health informatics (health information system, digital health, telemedicine, data quality and use, evidence-based practice, big data analysis and machine learning, electronic medical record...) since 2016.
- I have also **examined over 80 postgraduate students** as an external examiner to the University of Gondar, Debre Markos University, and Hawassa University, and an internal examiner to Bahir Dar University since 2016.

10. Professional Services and Membership

10.1. Professional Services

- **2026: Lead organizer/Executive lead of conference committee:** 6th International Health Research Conference of College of Medicine and Health Sciences (CMHS), Bahir Dar University (BDU).
- **2026: Executive team member** in the National Research Areas and Themes Identification and Prioritization process, Ministry of Health, Ethiopia.
- **2020 -Present: Active Strategic Scientific Advisory Committee member to APHI.**
- **2025: Lead organizer,** 5th International Health Research Conference of CMHS, BDU.
- **2022-2025:** Moderating scientific conference sessions in 2022 -2025.
- **2025: Organizing committee** member for the first Tana Research and Diagnostic International Conference, held in Addis Ababa, Ethiopia.
- **2018 –Present: Manuscript reviewer** for national and international conference organizing committees.
- **2017 –Present: Serving as a manuscript reviewer** for many peer-reviewed journals, including but not limited to The Lancet, MBJ, BMC Series, PLOS ONE, Dove Medical Press, Frontiers, Scientific Reports, Elsevier, SAGE, ...
- **2025: External Thematic Research Project Evaluator** to Woldiya and Gondar Universities during the 2025 evaluation program, **which took over a month in duration.**
- **2018 -2025:** Presenting more research outputs in regional, national, and international research conferences.
- **2024: Chairing** the Forty-Night Research Seminar (FoRSe) session organized by APHI.
- **2018 -Present:** Abstract reviewer for various peer-reviewed journals and conferences.
- **2023 -24:** Moderator and evaluator during the African postgraduate conference, BDU-Ethiopia
- **2022–2023: Lead organizer,** 2nd and 3rd Annual Joint International Health Research Conferences of Amhara Public Health Institute and CMHS-Bahir Dar University.
- **2021 –Present:** Chairperson (most) and member of various standing and ad hoc committees at BDU and CMHS (senate member, executive management member, staff recruitment and

development committee, Research publication and development committee chairperson, grant writing and hunting committee member, member of the planning and reporting format developer committee...and chairperson of the college strategic document development and revision committee, staff selection for promotion committee, Tana Research and Diagnostic Center strategic and directive document development committee).

- **2025: Team member and external evaluator** of the development of the Regional Strategic Health Information System Plan.
- **2024: Team member and Evaluator** of the development of the Amhara National Regional State Digital Health Roadmap Document.
- **2024: Team Member and Supervisor** of data analysis, report write-up, response plan development, and presenter to the concerned partners and stakeholders on the Amhara Regional State health system destruction/damage and health service interruption with ongoing internal conflict.
- **2022 -2025:** External Postgraduate Curriculum Evaluator to University of Gondar, Jimma University, Debre Markos University, Arba Minch University, and Mattu University.
- **2017 –2026:** External thesis examiner for postgraduate students from the University of Gondar, Debre Markos University, and Hawassa University.
- **2016 -2026:** Internal thesis/dissertation examiner for master’s and PhD students.
- **2021 -2026:** Internal PhD proposal evaluator, member of the board of examiners, and screening committee member for newly entering PhD students.
- **2022** –Giving a five-day training on research ethics and Institutional Review Board /IRB/ to Regional/APHI/ IRB members.
- **2022: Lead coordinator** of the 3rd National Neglected Tropical Diseases (NTD) Research conference in collaboration with the Ministry of Health & WHO, Bahir Dar, Ethiopia.
- **2021 -2023: Coordinator of Sinque/ ሰንቂ/** (Evidence dissemination and use) program of Aphi and the Regional Health Bureau for policymakers by representing Bahir Dar University.
- **2018:** Team member in the Development of a five-year strategic plan for Aphi.
- **2016-17:** Active Institutional Review Board Member and trainer for Aphi.
- **2014: Site Coordinator** for the capacity building program of the Global Health program at the University of Washington.

10.2. Professional Membership

- 2024 -Present: **Member**, Royal Society of Tropical Medicine and Hygiene (RSTMH)
- 2020 -Present: **Strategic Scientific Advisory Committee (SSAC)** member, Aphi.
- 2020 -Present: Member of Pan African Health Informatics Association/HELINA.
- 2022 -Present: Member of the Ethiopian Medical Laboratory Associate/EMLA)
- 2016 -Present: **Life Member**, Anti-Malaria Association of Ethiopia.
- 2015 -Present: **Life Member**, Ethiopian Public Health Association (EPHA).

11. Training and Professional Development

- **2026** -Training on Public Entrepreneurship and Innovation Ecosystem Building given by the Ethiopian Entrepreneurship Institute (EDI).
- **2026** -Evidence to Action training for Researchers and Policy Makers given by the Ministry of Health and Fenot Project, Addis Ababa, Ethiopia.
- **2025** -Master Class for Teaching Online (MCT), given by Arizona State University.
- 2024 -GCP Inspections and Clinical Research Management, The Global Health Network
- 2024 -Research Translation into Policy (EIDM) training, APHRC
- 2023 -Grant Proposal Writing Skills and Financial Grant Management given by APHRC.
- 2023 -ToT in Research Ethics, GCP, and scientific misconduct, AAU, and BDU
- 2023 -Evidence Implementation Training, JBI, Jimma University, and AHARI
- 2022 -ToT: GBD data management and analysis methods, University of Washington & EPHI
- 2022 -Evidence-Based Practice Training, Fenot project, and Bahir Dar University
- 2022 -Health Economics Evaluation training, AAU and CDT-Africa
- 2021 -Grant Proposal Writing and Management, BDU Research Directorate
- 2019 -Systematic Review and Meta-analysis, Bahir Dar University
- 2017 -Training on Research and Healthcare Ethics, Bahir Dar University
- 2017 -Training on Qualitative Data Analysis using software, Bahir Dar University.
- 2016 -Training on Mentorship of Field Epidemiology Students, Ministry of Health.
- 2015 -Research methods, research ethics, and grant writing, AAU & Bahir Dar University
- 2015 -Epidemiology for Global Health (3 months), University of Washington
- 2014/15 -Four trainings on Evidence-based practice, grant writing, Research methods, and Ethics in Biomedical research by Ohio State University.
- 2014 -Practice-Based Teaching Skills in Higher Education, University of Gondar & I-TECH
- 2014 -Training on Research Methods and Consultancy Services, University of Gondar & Ethiopian Public Health Association/EPHA.

12. Invited Talks and Presentations

- **2025:** Signatory for the MoU between MoH, EPHI, and Ethiopian HDSS sites.
- **2024: Presenter** on the magnitude of ***Essential health services interruption and facilities damaged by the ongoing conflict*** in the Amhara Region to higher officials and partners.
- **2024: Presenter** of a response plan for ***health service interruption and facility damage caused by the ongoing conflict*** in the Amhara Region to over 150 NGOs / partners working in the region and at the national level.
- **2022 -2023: Invited speaker at the Celebration of National Data Day**, EPHI, Addis Ababa.
- **2023:** Signatory for the MoU between the Forum of universities in the Amhara region and APHI.
- **2023: THREE** oral presentations on TB at the 17th TB Research Annual Conference and 2023 annual TB Day, organized by UoG and AHARI, March 23 -24, 2023
- **2022:** Oral Presentation of A qualitative insight into barriers to tuberculosis case detection

in East Gojjam, Ethiopia, at the **Sinque Program** of APHI, March 15, 2022.

- **2022:** Oral presentation of Magnitude, barriers, and facilitators of leprosy services in Amhara Region, Ethiopia, organized by MoH and BDU, Bahir Dar, Sep 22-23, 2022.
- **2021: FUOR oral presentations** of research findings on spatial distribution, sputum smear conversion time, TB infectious pool, and Determinants of Routine health information use at the 2nd APHI annual research conference, Bahir Dar, Aug 4 -5, 2021.
- **2019: Oral presentation** of TB research findings at the 14th National TB conference and global TB Day commemoration, held in Afar, Samara, Ethiopia, March 23 -24, 2019.
- **2018: Oral presentation** on Determinants of Routine Health Information among primary healthcare workers in Amhara region at the 1st Mecha HDSS conference, May 14 -15, 2018
- **2017: Two oral presentations** at the 28th annual Ethiopian Public Health Association /EPHA Conference held in Harar City, Feb 19 -22, 2017.
- **2015: Poster presenter** at the 26th Annual Ethiopian Public Health Association (EPHA) Conference, held in Bahir Dar, Feb 25-28, 2015.
- **2015: Oral Presentation** on Routine Healthcare data quality status and its determinants at the health system conference of APHI, held in Adama, Ethiopia, Oct 5 -6, 2025.
- **2015: Two oral presentations** at the first annual research conference of the CMHS, Bahir Dar University, Aug 3-4, 2015.

NOTE: All of these have ***Certificates of Recognition*** and are attached to the promotion application document as appendices.
